## FACTS ABOUT VALUE IN HAND TOOLS...

Husky Hand Tools are built to last a lifetime. That's why Husky's aim is to give you value in hand tools — you depend on them and you deserve the best! Yet, they're priced reasonably.

You also have these extra built-in features — **sockets** are "thin-walled" for working in restricted areas yet strong — "chamfered" to slip on nuts and bolts easily — "Four-way ball grooved" for quick, positive attachment to any drive tool — **Ratchets** and **Wrenches** are forged — polished to a mirror chrome finish — and hardened for extra strength. Sets contain a complete and matched assortment of tools neatly packaged in reusable boxes for easy carrying and storing. You have point of purchase header cards in most sets explaining contents and applications.

Husky sockets and socket wrench attachments are backed by 69 years of precision manufacturing experience for craftsmen to professional quality standards.

Home, Farm, or Industry . . .  
your **BEST VALUE** is **HUSKY!**

# MIDGET SOCKET DRIVE TOOLS

These midget sockets and attachments are designed to work quickly and efficiently at jobs too small for tools in larger drive sizes . . . Precision machined for an accurate sure-grip-fit. Made from special steel, heat treated, chrome plated and highly polished . . . they are as finely made as a Swiss watch, yet steady enough to stand up to any job expected of a 1/4" drive tool.
